

Visit of the exhibition „Forest Worlds“ Gasometer Oberhausen

Step into the forest with us – this time, no hiking boots required, just curiosity and a sense of wonder. Whispering leaves, mysterious sounds, breathtaking wildlife, and towering tree canopies: Join us for a guided visit to the exhibition „Forest Worlds“ at the Gasometer Oberhausen and experience forests like never before. Whether you love nature, photography, art, or simply discovering something new – this visit will take you on a journey through forests from Brazil to Europe and show why they are vital for our planet. You'll leave inspired (and maybe hugging the next tree you see). After the guided tour, we can explore the highlights at our own pace.
